Reasons for Allowance

1. Examiner has reviewed and considered Applicants arguments and claim amendments in Applicant's response dated 10/17/06. Based on Applicant's comments, as indicated on page 11, 3rd paragraph regarding claims 1 – 25 and current amendments regarding claims 1 – 25 claims are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance. The prior art of record does not teach in any one reference or combination of reference or fairly suggest at least:

A method for statically detecting a data race condition in a multithreaded application, said method comprising:

“ processing the set of input information by comparing threads that may execute statements in a statement pair, said processing comprising computing a node conflict set by traversing said multithreaded context graph to identify conflicting pairs of nodes in said multithreaded context graph ” as best illustrated by FIG.2 and 3 and in such a manner as recited in independent claims 1, 17, 20 and 23, and as pointed out in pages 11, 3rd paragraph, of Applicant's response (10/17/06).

Therefore, all claims 1 – 25 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
